Jl. Mawar Blok BA No.6 RT.5/RW.4 Kel.Pondok Jagung Kec. Serpong utara Kota. Tangerang selatan

Electrical Engineer with 3+ years of professional experience in industrial automation, electrical maintenance, machine troubleshooting, and technical support. Experienced in supporting industrial automation systems involving Siemens PLC, HMI, ASRS (Automatic Storage and Retrieval System), conveyor systems, KUKA robots, sensors, actuators, inverters, and three-phase motors.

Skilled in preventive and corrective maintenance, electrical and mechanical troubleshooting, system upgrades and modifications, technical documentation, and remote/on-site technical support. Hands-on experience with Siemens TIA Portal, Ladder Diagram programming, Factory I/O simulation, HMI design, and industrial control systems. Graduated with a Bachelor of Electrical Engineering in August 2019, with a concentration in Electronic Instrumentation Systems for Aircraft (Avionics).

Pengalaman Kerja

PT. Giesecke & Devrient Indonesia - Tangerang Selatan, Indonesia

Oct 2022 - Sekarang

Technical Support Engineer | Acting Team Leader

Multinational company engaged in the distribution of money sorting machines, service and machine maintenance.

- Perform preventive and corrective maintenance on industrial automation equipment, production machines, and supporting systems to maintain reliable operation.
- Diagnose and resolve electrical, mechanical, hardware, and control-system faults to minimize machine downtime and restore operational performance.
- Provide technical support for PLC, HMI, ASRS (Automatic Storage and Retrieval System), conveyor systems, KUKA robots, sensors, actuators, inverters, and three-phase motors.
- Analyze machine failures and perform systematic troubleshooting on electrical and mechanical systems to identify root causes and implement corrective actions.
- Support system upgrades, machine modifications, component replacement, and technical improvements according to operational and client requirements.
- Provide remote and on-site technical support, including fault analysis, recovery assistance, machine inspection, and operational support.
- Read and interpret electrical schematics, wiring diagrams, technical drawings, machine manuals, and engineering documentation.
- Prepare service reports and technical documentation covering maintenance activities, troubleshooting, repairs, upgrades, and system conditions.
- Coordinate technical problem solving and team activities while performing responsibilities as Acting Team Leader.

THE RALZ'Z PROPERTY - Palu, Indonesia

Oct 2020 - Jul 2021

SUPERVISOR & DESIGN/DRAFTER

Engaged in property, plot sales and housing development.

- Supervised field activities related to land preparation, plot formation, and housing development.
- Coordinated land acquisition activities and ensured field implementation was aligned with site plans and development requirements.
- Coordinated with village authorities, local communities, and stakeholders during land acquisition and housing development activities.
- Prepared plot and housing site plans using engineering and design software.
- Developed marketing layouts, brochures, and visual documentation for property and residential projects.
- Prepared video documentation of project and residential areas for presentation and marketing purposes.

PT. SEKARMAS NUSANTARA - Yogyakarta, Indonesia

Nov 2019 - Feb 2020

ELECTRIC TECHNICIAN

Engaged in the tourism and culinary sector in the Sleman area, Special Region of Yogyakarta.

- Performed electrical installation activities for project and building applications.
- Conducted electrical troubleshooting, equipment inspection, cable tracking, and continuity testing.
- Performed maintenance of electrical equipment and company assets to support reliable operation.
- Installed piping systems and supported related technical activities at project sites.
- Prepared electrical installation designs according to project requirements and site conditions.

AIRNAV INDONESIA KCP PALU - Palu, Indonesia

Aug 2017 - Sep 2017

Internship (Engineering Division)

Provider of international standard aviation navigation services.

- Assisted in troubleshooting communication equipment and aviation antennas at Mutiara Sis Al-Jufrie Airport.

- Supported maintenance activities for aviation communication equipment and antenna systems.
- Assisted engineering personnel in inspecting equipment condition and identifying technical issues.
- Prepared maintenance reports and documented the condition and proper use of communication equipment and aviation antennas.

Jenjang Pendidikan

Sekolah Tinggi Teknologi Adisutjipto Yogyakarta  - Yogyakarta, Indonesia	Sep 2014 - Aug 2019
<i>Bachelor of Electrical Engineering, 2.68/4.00</i>	
• Develop and modify electronic systems. • Application of Electronics and Electromagnetics. • Concentration of Electronic Instrumentation Systems on Electrical Systems in Aircraft (Avionics).	

Pengalaman organisasi

NATURE LOVERS ADISUTJIPTO HIGH SCHOOL OF TECHNOLOGY - Yogyakarta, Indonesia	Nov 2016 - Feb 2018
<i>Member</i>	
Trigasana student nature lovers is an organization of nature lovers who work in the field of nature lovers, which includes adventure and environmental conservation.	
• Participated in training related to land navigation, survival techniques, SAR, and teamwork. • Supported recruitment, education, training, and organizational events.	
PALU STUDENTS ASSOCIATION IN YOGYAKARTA - Yogyakarta, Indonesia	Nov 2015 - Aug 2017
<i>CORDINATOR OF PUBLIC RELATIONS DIVISION</i>	
IKPMP DIY is a gathering place for female students from the Palu area who are studying at universities in the special area of Yogyakarta.	
• Coordinated communication between Palu students studying in Yogyakarta and students from other regions. • Organized social activities and supported community-oriented programs. • Participated as a humanitarian volunteer during the 2018 earthquake in Central Sulawesi.	

Keterampilan, Prestasi & pengalaman lain

- **Certificates Training**  (2024): Young Building Maintenance Expert
- **Certificates Training**  (2019): General K3 Member / Development of Supervision of Occupational Health and Safety Norms
- **Certifikat Training**  (2020): AutoCAD 5-Day Training – Engineering Construction
- **Certificate Seminar**  (2017): NATIONAL SEMINAR (National Electrical Power System Competition 2017) Organized by Family of Electrical Engineering and Information Technology Students, Faculty of Engineering, UGM. September 23, 2017
- **Thesis**  (2019): Design and Build of Automatic Air Conditioner Control Using Passive Infrared Receiver (PIR) Sensor 2019
- **Personal Project**  (2022): "REHABILITATION OF DONGGALA DISTRICT DPRD OFFICE PAGE" Designing an image scheme for the front yard of the DONGGALA REGENCY DPRD office. Donggala. Using 3D Sketchup & Lumion Software. Estimated work time 4 days.
- **Software Skill** : Can operate software : Microsoft Word, Excel, Power Point, Tia Portal, Factory IO, Proteus, C++ (Arduino), Corel Draw, AutoCad, Sketchup, Lumion & Solid works.
